

Lehigh River Watershed CONSERVATION MANAGEMENT PLAN

Wildlands Conservancy 2003

This project was financed in part by a grant from the Community Conservation Partnership Program, Rivers Conservation Program, under the administration of the Pennsylvania Department of Conservation and Natural Resources, Bureau of Recreation and Conservation, and the William Penn Foundation.

Acknowledgements

Wildlands Conservancy would like to acknowledge the following individuals and organizations for their contributions to the creation of this management plan, and for their on-going commitment to the preservation, protection, and enhancement of the Lehigh River and its watershed.

WILDLANDS CONSERVANCY'S CONTRIBUTING AUTHORS

Ms. Kate Brandes <i>Environmental Scientist</i>	Mr. Thomas J. Kerr <i>President</i>	Ms. Diane Matthews-Gehringer <i>Land Conservation Manager</i>
Mr. Dennis G. Collins <i>Director of Land Protection</i>	Ms. Sharla Kistler <i>Database Manager</i>	Ms. Abigail Pattishall <i>Environmental Biologist</i>
Mr. Brian Flores <i>Stream Restoration Specialist</i>	Mr. Chris Kocher <i>Director, Rivers Program Chief Program Officer</i>	Mr. Brian Vadino <i>Stream Restoration Manager</i>
Mr. Thomas L. Gettings <i>Director of Advancement</i>	Ms. Debra Lermite <i>Director of Land Conservation & Planning</i>	Mr. Gregg Woodruff <i>Environmental Scientist</i>

PROJECT STEERING COMMITTEE

The Project Steering Committee provided essential guidance and assistance in the formation of this plan. The commitment and involvement of the committee was substantial throughout the planning process. Their collective knowledge, experience, and contacts greatly enhanced the quality of the product. Wildlands Conservancy would like to publicly thank and recognize the members of this valuable committee.

Mr. Philip Burtner <i>President Monocacy Creek Watershed Association</i>	Mr. Doug Fogal <i>Pocono Whitewater Adventures</i>	Dr. Carl Oplinger <i>Associate Professor of Biology Biology Department, Muhlenberg College</i>
Mr. James Clauser <i>District Manager Carbon County Conservation District</i>	Mr. William Manner <i>Pennsylvania Department of Environmental Protection</i>	Mr. Geoff Reese <i>Chief Planner Lehigh Valley Planning Commission</i>
Ms. Kate Crowley <i>Environmental Program Manager Pennsylvania Department of Environmental Protection</i>	Dr. Carl Moses <i>Dean, College of Arts and Sciences Lehigh University</i>	Mr. Todd Wood <i>Pennsylvania Department of Environmental Protection, Bureau of Abandoned Mine Reclamation</i>
	Dr. Kenneth Najjar <i>Branch Head, Planning and Implementation Delaware River Basin Commission</i>	

PROJECT PARTNERSHIP COMMITTEE

The Project Partnership Committee gave advice and guidance to Wildlands Conservancy on the development of this plan. The members of the committee attended several meetings, provided information, advice, and contacts, and served as key advocates for the plan. The combined knowledge and expertise of this group significantly aided Wildlands Conservancy in completing the project. Without the commitment and expertise of this group, the project would not have been possible. Wildlands Conservancy would like to publicly thank and recognize the members of this valuable committee.

Lehigh River Stocking Association, specifically Matt MacConnell		

INDIVIDUALS

Mr. David Arnold and Mr. Lee Creyer, Pennsylvania Fish & Boat Commission, for their assistance with the fisheries and biological section of the report

Mr. Tim Block, Morris Arboretum of the University of Pennsylvania, for his assistance with the biological section of the report

Dr. David Brandes, Civil Engineering Department, Lafayette College, for his assistance with the development of the water budget

Ms. Heather Dorn for her assistance in preparing the resource section of the report

Mr. Michael J. Cox, Director, Cora L. Brooks Foundation

Ms. Barbara Field who provided the design and layout of the plan

Mr. Jeff Fisher, U.S. Geologic Survey, for his contribution of data and expertise

Mr. Thomas Gettings, Wildlands Conservancy, for supplying photographs

Mr. Bill Gleason, The Nature Conservancy, for his assistance with the biological section of the report

Mr. Robert Hamill, for his assistance with the recommendation section of the report

Ms. Alana Hartman, Coordinator, Important Mammal Areas Project, for providing information for Biological section of the report

Mr. Robert Miller, Biology Teacher (Ret.), Parkland School District

Mr. Peter Noyce, Longswamp Township

Mr. Brandon M. Ruhe, Brandon M. Ruhe and Associates, LLC, for his assistance with the herpetological section

Ms. Liesel M. Smull, Lehigh County Authority, for her participation

Mr. Al Zagofsky for his assistance with the cultural section of the report

VIII. RECOMMENDATIONS	419
A. GOAL: PROTECT AND PRESERVE CULTURE AND HISTORICAL RESOURCES	421
I. Objective: Identify and preserve regionally and nationally significant historic sites and landscapes within and/or connected to the Lehigh River watershed.	421
II. Objective: Educate residents of the watershed about its cultural and historical heritage and value.	421
III. Objective: Build better communities through protection and preservation.	422
B. GOAL: IMPROVE WATER QUALITY IN THE LEHIGH RIVER AND ITS TRIBUTARIES	423
I. Objective: Remediate Abandoned Mine Drainage (AMD) Impacts In The Lehigh River And Its Tributaries.	423
II. Objective: Promote Stream, Floodplain, Wetland, And Riparian-Buffer Restoration And Establishment For Waterquality Improvement	424
III. Objective: Reduce Urban and Suburban Non-Point Source Pollution	425
IV. Objective: Institute and Improve Stormwater Management Practices	426
V. Objective: Reduce Agricultural Non-Point Source Pollution	427
VI. Objective: Promote the Proper Operation And Maintenance Of Septic Systems And Sewage Treatment Plants	428
VII. Objective: Promote water conservation	428
VIII. Objective: Promote Water Conservation	429
C. GOAL: PROTECT SIGNIFICANT AND VALUABLE LAND COMPONENTS	429
I. Objective: Preserve Natural Areas Inventory sites (NAIs) and high priority areas	429
II. Objective: Create and protect greenways areas	431
III. Objective: Protect forests	431
IV. Objective: Preserve farmland areas	431
V. Objective: Protect existing riparian areas and wetlands	431
VI. Objective: Protect other land resources	432
VII. Objective: Manage preserved and protected land	432
VIII. Objective: Promote the re-use and revitalization of brownfields and grayfields	433
D. GOAL: PROTECT BIOLOGICAL RESOURCES	433
I. Objective: Protect biodiversity and wildlife habitat	433
II. Objective: Conduct and support species inventories and research programs	435
E. GOAL: INCREASE AND ENHANCE WATERSHED RECREATIONAL OPPORTUNITIES	435
I. Objective: Create, improve, and expand watershed recreational facilities.	435
II. Objective: Implement and enhance trails and rails-to-trails projects.	435
III. Objective: Support river-based recreation	436
IV. Objective: Clean up the stream corridors, parks, greenways, and trails within the watershed. ..	436
F. GOAL: PROMOTE MUNICIPAL WATERSHED STEWARDSHIP	437
I. Objective: Implement and improve municipal ordinances	437
II. Objective: Implement and improve municipal plans	437
G. GOAL: PROMOTE ENVIRONMENTAL AWARENESS, KNOWLEDGE, SKILLS, SUPPORT, AND STEWARDSHIP COMMITMENT.	440
I. Objective: Provide environmental, heritage, and cultural education opportunities for the general public, local government, and business leaders.	440
II. Objective: Provide educational opportunities for all students in the Lehigh River watershed.	441

III. Objective: Provide educational opportunities for educators within the Lehigh River watershed	442
IV. Objective: Support organizations and activities, which protect watershed resources	442
V. Objective: Hold public meetings and forums	443
H. GOAL: MONITOR AND UPDATE WATERSHED RESOURCE INFORMATION ON A CONTINUING BASIS	443
I. Objective: Conduct water quality sampling and analysis.	443
II. Objective: Conduct biological monitoring.	444
III. Objective: Develop, update, and maintain watershed resource information	444
