Welcome to Camp!

We hope you are as excited as we are about summer camp 2022! Wildlands Conservancy has been delivering outstanding, in person programs for over 40 years. To maintain the high-quality Wildlands’ Camps are noted for, we have made a few modifications. Our focus is on a safe, fun experience for your child and staff. To that end, you should know the following:

- Staff will follow CDC recommended health risk minimization practices including social distancing, hand hygiene and face coverings. At this time, face masks are optional; however, this could change based on CDC guidance.
- Program attendee capacity maximums will be honored. This ensures adequate staffing and high quality delivery and safety of our campers.
- Campers will remain with their team throughout the week.
- Sharing resources will be minimized and any equipment will be properly sanitized between each use.
- In case of suspected exposure to a health risk, participants and staff are required to notify The Director of School Programs and Summer Camp. Wildlands will notify parents/guardians of exposure in accordance with applicable laws. All efforts will be made to maintain the utmost confidentiality.
- All staff and program participants must be symptom free (coughing, fever, sore throat, stuffy or runny nose, nausea or vomiting, diarrhea) to participate in each day’s activities.
- Rolling drop off allows you remain in your vehicle! A Wildlands Conservancy staff person will guide you from the time you enter the parking area.
- All campers must have a signed Program Participation Waiver. You should have completed one during your on-line registration process. If someone else handled registration for you, you are still able to sign into your account to complete a waiver. We will have paper waivers on hand when you drop off your child. Unfortunately, children cannot stay without a waiver signed by a parent or legal guardian.
- We will spend most of our day outdoors. Please, dress for the weather. Our Parent Information Sheet outlines “what to bring”.
- Wildlands Camp’s customary Grade 6+ field trips are back! Trip locations are part of each week’s description.
- A nonperishable lunch, morning and afternoon snack should be brought from home.
As always, Wildlands Conservancy’s preserves are open for exploration by you and your family from dawn to dusk. Please consider registering for other programs. Our upcoming events calendar is located here or visit www.wildlandspa.org

*Wildlands Conservancy reserves the right to modify and/or change camp program activities and structure based on health, safety, and other variable factors.

If you have any questions, just let us know!

For summer camp program questions, contact Denise Bauer, 610-965-4397 ext 131 or DBauer@wildlandspa.org

For administrative and technology questions contact Brandon Swayser, 610-965-4397 ext 136 or BSwayser@wildlandspa.org
